SOFTWARE DEVELOPER

London ON | 519-788-9947 | [dylant.proctor@gmail.com](mailto:dylant.proctor@gmail.com) | [Github](#)

## Summary

Software Developer with internship experience in Ruby on Rails and VBA. Skilled in refactoring legacy code, writing automated tests, and collaborating with cross-functional teams. I am seeking to contribute clean, maintainable code and continue growing as a developer.

## Experience

### Ruby on Rails Software Developer Intern & Part-Time Infotech Research Group Sept 2024 - Current

- Developed and maintained Ruby on Rails applications
- Refactored legacy code to increase maintainability
- Ensured that each ticket had full test coverage when completed
- Peer reviewed pull requests, gave feedback and asked questions
- Participated in design meetings when starting new projects
- Worked on both front-end and back-end tickets

### VBA Software Developer Intern & Part-Time Government of Canada Jan 2024 – August 2024

- Worked with businesspeople to create macros to help their workflow
- Helped Translate existing applications from English to French
- Wrote new tools from start to finish
- Updated documentation when adding or changing features

## Education

Fanshawe College, Computer Programming and Analysis, Honors	2022-Current
Programming Expert Certificate <a href="http://www.programmingexpert.io">www.programmingexpert.io</a>	Summer 2023

## Skills & abilities

- Proficient in: Java, C#, Ruby (Ruby on Rails Framework), Python, C++, VBA
- Understand of database concepts: MySQL, SQL Server
- Git Version Control
- Agile Development
- Problem Solving

## Personal Projects

- Create Games in the Godot Engine
- Read documentation on Godot, pygame and SFML
- Work with designers and artists to incorporate their work into the project
